Professional focus Technical Procurement | Supply Planning & Materials | ERP & Master Data | Business Systems & Process Improvement

Profile

Cross-functional procurement, supply chain and business systems professional with broad international experience spanning technical manufacturing, FMCG, distribution and customer operations in Denmark, New Zealand, Australia and France. Brings hands-on ownership across supplier decisions, purchasing, planning, ERP/master data, production readiness, commercial analysis and process improvement, connecting operational detail with wider business priorities. At A.K.S. Finmekanik managed supplier and material actions across 30+ EU/US suppliers while maintaining 2,000+ Dynamics AX/D365 records and 200+ complex product structures. Earlier roles add SAP-based purchasing and FMCG planning, WMS inventory control, international order-to-cash, commercial and demand analysis, and a technical foundation in electrotechnics, automated production, quality systems and root-cause methods. Known for learning systems quickly, spotting risks early and turning cross-functional issues into clear actions and reliable follow-through.

30+ EU / US SUPPLIERS	2,000+ ERP & MASTER DATA RECORDS	200+ COMPLEX PRODUCT / BOM STRUCTURES	100+ ITEMS COST / PRICE ISSUE CAUGHT BEFORE QUOTE
--------------------------	--	---	---

Core capabilities

TECHNICAL PROCUREMENT & SUPPLIER OPERATIONS PO/open-order control, RFQs, offer evaluation, supplier selection/replacement, routine awards within delegated authority, operational negotiations, expediting, delivery/quality recovery, invoice exceptions and framework/call-off execution.	PLANNING, ERP & MASTER DATA Dynamics AX/D365, SAP, NAV/Navision and WMS; MRP, stock/incoming supply, shortages, replanning, production-order release, BOMs, routings, planning parameters, lifecycle/phase-in-out, approved changes and first-production readiness.
BUSINESS OPERATIONS & COMMERCIAL ANALYSIS Order-to-cash, pricing/quotation inputs, receivables and service recovery; sales/category/geographic analysis, campaign-gap review, CRM/process development, forecast accuracy/bias and operational reporting.	QUALITY, PROCESS & CONTINUOUS IMPROVEMENT ISO 9001, internal/process audits, root-cause analysis, Lean/5S, Six Sigma, controlled operations, FAI, NCR/SCAR, traceability, controlled documentation, standard work and validation controls.

Professional experience

Planning, Supply Chain & Quality Coordinator | A.K.S. Finmekanik A/S, Hvidovre Jul 2024 - Jun 2025

- Purchasing and sourcing authority:** Managed daily PO/open-order execution across 30+ EU/US suppliers; prepared RFQs, evaluated offers and made day-to-day sourcing and supplier decisions within assigned scope, including supplier selection/replacement and routine awards; negotiated price, payment terms and lead times, escalating major, high-risk or final commitments where required.
- ERP, product data and controlled change:** Maintained and validated 2,000+ item, supplier and product/master-data records in Dynamics AX/D365; created or validated 200+ revision-controlled multi-level structures in about two weeks and translated approved customer/engineering changes into controlled BOM, routing, material and production-data updates.
- Planning, lifecycle and production readiness:** Used MRP, stock/incoming supply, shortages, supplier lead time/capacity and phase-in/phase-out signals to replan priorities, release production orders within assigned scope and protect prototypes, first articles, revised products and customer commitments.
- Supplier quality and regulated operations:** Followed delivery and quality issues, configuration-audit evidence, FAI, NCR/SCAR, corrective actions, traceability, certificates, rework/returns and export-sensitive workflows; supported P2P/invoice-exception resolution while specialist approvals remained with responsible owners.
- Control and results:** Built trackers, handover routines and repeatable validation checks; caught conflicting cost/sales-price data affecting 100+ items before a major quotation and maintained critical supply/production-readiness follow-up during reduced team coverage.

Employment ended following the company bankruptcy in 2025.

Pedagogical Assistant (SFO) | Greve Kommune, Denmark Jul 2022 - Jun 2024

- Danish workplace and development:** Supported children and pedagogical staff through structured routines, supervision and clear handovers; completed Danish PD2/B1+, SQL/database fundamentals and Power BI/DAX training alongside the role.

Warehouse Coordinator - Operations & Stock Accuracy | IKEA Distribution Center, Høje Taastrup Mar 2020 - Jul 2022

- Inventory, flow and KPIs:** Used WMS-directed workflows, cycle counts and stock reconciliation to investigate discrepancies and support stock/location accuracy; followed inbound/outbound operational KPIs and used system information to prioritise daily workload.
- Safety and standard work:** Held assigned safety responsibility in daily warehouse operations and improved routines, onboarding material, escalation practices and shift handovers.

Earlier relevant experience

Temporary Operational Roles (Vikar / Agency Assignments) Various employers, Denmark	Jun 2018 - Feb 2020
Agency operations and freight: Completed production, warehouse, service and administrative assignments; coordinated carriers/forwarders, collection and delivery timing, labels, quantities and export/shipping documents before release.	
Operations / Supply Chain Coordinator Heinz Wattie's / Kraft Heinz, Christchurch, NZ	Feb 2017 - Mar 2018
SAP, planning and material flow: Used SAP transactions and Excel operationally across five production lines and 40+ variants, reconciling orders, consumption, inventory, material availability and production priorities; used forecast accuracy, bias and service/planning signals for prioritisation and replanning. Food safety and controlled operations: Worked within formal food-safety controls and HACCP/GMP-related routines, where material status, traceability, process discipline and accurate records were essential to stable production.	
Purchasing & Supply Chain Support Fletcher Building, Auckland, NZ	Feb 2016 - Nov 2016
SAP purchasing and goods receipt: Used SAP transactions to create/follow purchase orders and process goods receipt across approximately 15-20 suppliers, coordinating confirmations, pricing inputs, availability and delivery timing. Commercial and inventory follow-up: Kept quantity, price, tender and inventory-control discrepancies visible and followed corrections before they affected downstream operations.	
Operations Support Officer - French & European Inbound AOT Inbound / ATS Pacific, Melbourne, Australia	Apr 2013 - Sep 2015
International customer-file ownership: Managed assigned French/European customer files from rates and quotation inputs through bookings, confirmations, itineraries/service details, live delivery, invoicing and payment follow-up, coordinating clients, suppliers, tour leaders and Contracting. Systems, receivables and recovery: Used NAV/Navision, Amadeus and Tourplan to maintain accurate commercial records, monitor receivables ageing, make collection calls and resolve urgent changes, complaints and disputes in English and French.	
Production & Quality Technician ArcelorMittal, Mouzon, France	Sep 2007 - Mar 2012
Quality, audits and root-cause work: Worked with ISO 9001 routines, internal/process audits, daily quality meetings, inspection records, non-conformities and corrective actions; used 5 Why and Ishikawa/Fishbone methods to support root-cause analysis. Process and waste improvement: Analysed scrap and rework, supported process control and standardisation, and applied Lean/5S, Kaizen and Six Sigma principles in an industrial manufacturing environment.	

Selected digital & workflow implementation projects

Independent Digital & Workflow Implementation Projects Part-time, Denmark	Oct 2024 - Jul 2025
Requirements to handover: Clarified requirements, structured source data and content, tracked issues and review cycles, tested releases and prepared owner handover so implemented changes were practical and maintainable. Tools and implementation: Used Jira, GitHub and Cloudflare with HTML/CSS and basic JavaScript for controlled delivery and QA; treated digital tools and AI as support for research, structuring and validation rather than a substitute for human ownership.	

Selected commercial, data & planning impact

COMMERCIAL ANALYTICS & OPERATIONS Across Fletcher Building and Kraft Heinz, worked with primary/secondary sales reporting, product/category and geographic analysis, promotion/campaign gaps, CRM/process development and sales-process automation. Earlier AOT/ATS experience adds pricing, quotation support and full order-to-cash ownership.	PLANNING, ERP & LIFECYCLE CONTROL Applied MRP, forecast accuracy/bias, stock and shortage visibility, supplier lead-time/capacity recovery, master-data validation, phase-in/phase-out and controlled engineering changes to protect material availability and operational continuity.
---	---

Tools, education and development

ERP & systems: Dynamics AX/D365 (recent daily use); SAP operational in New Zealand at transaction level, including purchasing and materials transactions; NAV/Navision daily at AOT/ATS; WMS; Jira; Salesforce exposure.	Data & technical: Advanced Excel; Power Query; PivotTables; Power BI/DAX (reporting level); SQL fundamentals; Python (basic, self-taught); HTML/CSS; basic JavaScript; SOLIDWORKS; Autodesk Fusion.
Business analysis, process & workflow: Requirements clarification; stakeholder coordination; process mapping/notes; issue/action tracking; testing; validation; handover; standard work; workflow improvement and repeatable controls.	Quality & controlled operations: ISO 9001; internal/process audits; scrap/rework analysis; FAI; NCR/SCAR; traceability; certificates; revision control; rework/returns; export-control workflow support.
Earlier technical foundation: PLC programming; automated production systems; basic automation diagnostics and sensor/actuator replacement; electrical safety (historical BS/BE authorisations); electrotechnical & industrial systems; networking/database fundamentals; FAT/SAT principles.	
Education: IT & Business Systems Diploma - Box Hill Institute, Melbourne (2013-2015) Bac Pro PSPA - Pilotage de Systèmes de Production Automatisée - CFAI Ardennes, France (2007-2009) Baccalauréat STI - Génie Électrotechnique - Lycée Pierre Bayle, France (2004-2007)	
Selected courses: SAP Introduction incl. PP/MM & S/4HANA Overview - Edutasia (Sep-Nov 2025) Power BI & DAX - Microsoft edX (Feb-Mar 2024) SQL & Database Fundamentals - Itucation (Aug-Sep 2023)	
Professional development (Aug 2025-present): Continued practical development in Excel/Power Query, Power BI/DAX, SQL, SAP S/4HANA concepts, ERP/process improvement and Danish.	
Languages: French native English fluent Danish operational, PD2/B1+ Persian beginner French/EU citizen, authorised to work in Denmark and Sweden without sponsorship
